Luca Tornatore, I.N.A.F.

2025 INAF Course on HPC - Basic Module

September, 22nd - 26th, OACT, Catania

Welcome

Welcome at the Basic Module of the HPC INAF School 2025 edition

hosted from 22nd to 26th of September by the Observatory of Catania.

Welcome

Let’s express our gratitude to the LOC

Alessandro **Costa**
Fabio **Vitello**
Salvo **Scavo**

that has organised all the logistics and
the set-up of the cluster PLEIADI @ OACT

Welcome

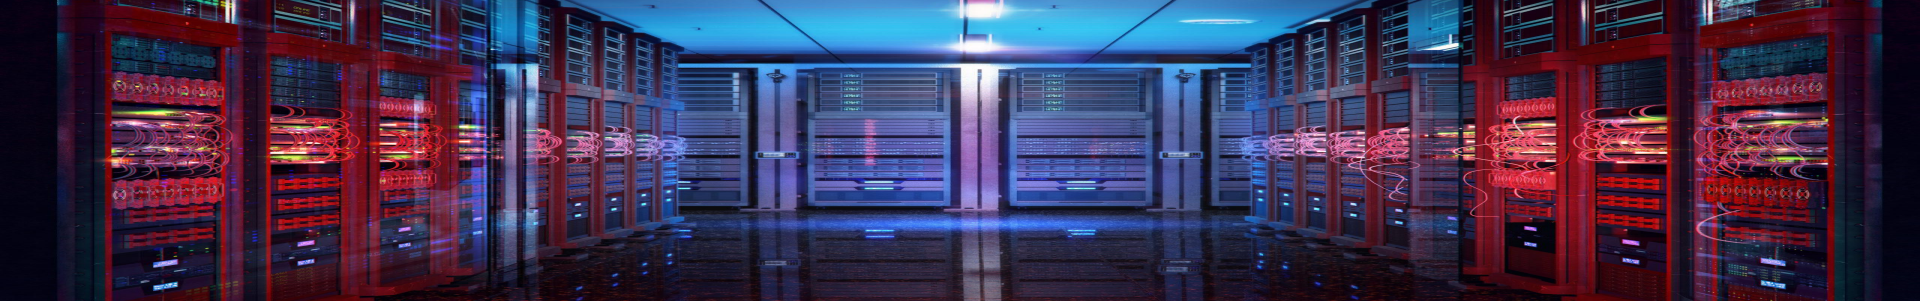
Your teachers and instructors will be

Luca **Tornatore**
David **Goz**
Giovanni **Lacopo**
Antonio **Ragagnin**
Giuliano **Taffoni**

from OATS (Trieste)

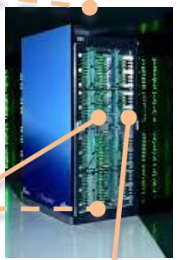
What you’re gonna learn this week ?

What you're gonna learn this week ?

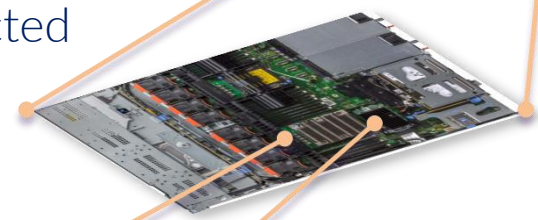


HPC
platform

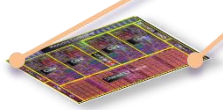
~100
interconnected
racks



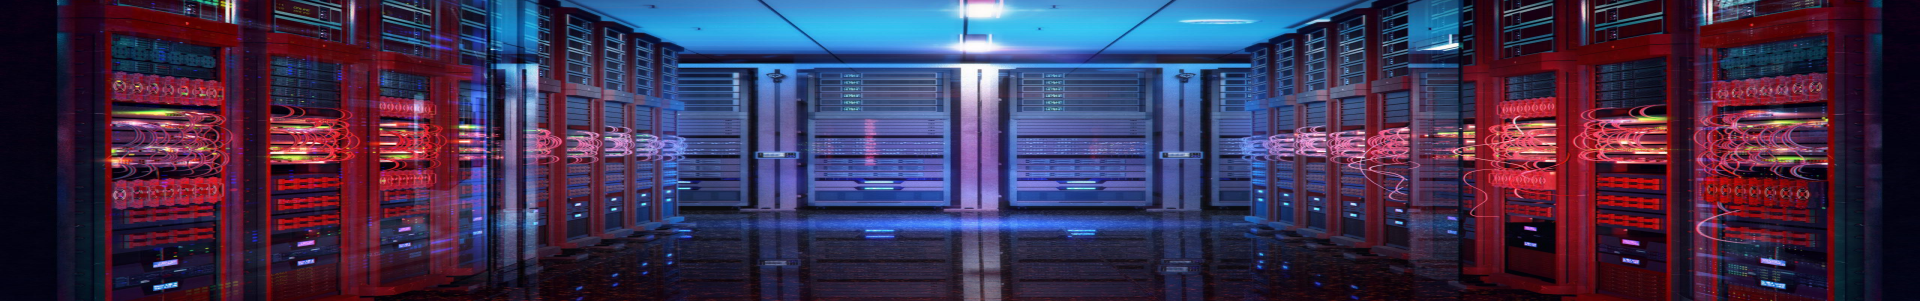
RACK
~100 of
interconnected
nodes



NODE
multiple CPUS (2-4)
multiple GPUs (2-8)
multiple FPGAs
multiple Vector Acc.



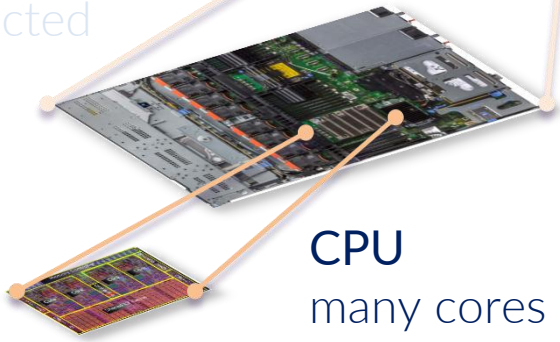
CPU
many cores



HPC
platform

~100
interconnected
racks

RACK
~100 of
interconnected
nodes

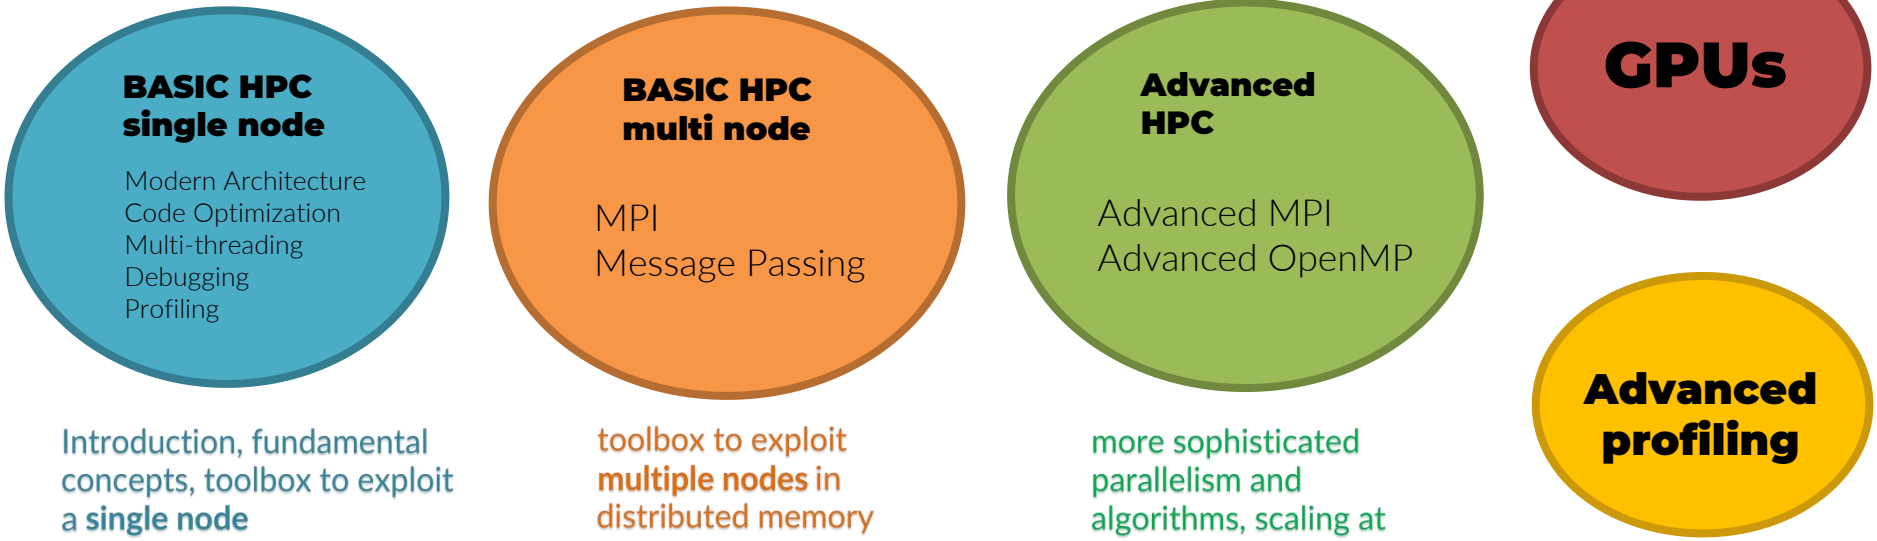


NODE
multiple CPUS (2-4)
multiple GPUs (2-8)
multiple FPGAs
multiple Vector Acc.

CPU
many cores

What you're gonna learn this week ?

The INAF school is (being) planned to be modular



Introduction, fundamental concepts, toolbox to exploit a **single node**

toolbox to exploit **multiple nodes** in distributed memory

more sophisticated parallelism and algorithms, scaling at thousands of nodes

What you're gonna learn this week ?

The INAF school is (being) planned to be modular

The plan of the week

	22/9 MONDAY	23/9 TUESDAY	24/9 WEDNESDAY	25/9 THURSDAY	26/9 FRIDAY
	CPU architecture & code optimization	*Parallelism & Intro to OpenMP*	*OpenMP*	*OpenMP / Profiling & Debugging*	*Profiling & Debugging*
09:00	Welcome Address	Intro to parallel computing	OpenMP	OpenMP	Debugging
09:30					
10:00	CPU Arch. & Optmization		exercises	exercises	exercises
10:30					
11:00	break	break	break	break	break
11:30	exercises	Intro to OpenMP	OpenMP	Profiling	Conlusions
12:00					exam
12:30			exercises		
13:00	LUNCH BREAK	LUNCH BREAK	LUNCH BREAK	LUNCH BREAK	----
13:30					
14:00					
14:30	CPU Arch. & Optmization	OpenMP	OpenMP	exercises	....
15:00					....
15:30					....
16:00	break	break	break	break	....
16:30	*exercises*	exercises	exercises	exercises	....
17:00					....
17:30				Debugging	....
18:00					....
18:30				exercises	....

The (temporary) repo

https://github.com/lucatornatore/INAF_HPC_School_2025

that's all, have fun
